Acceptance Letter

Student Name: ____________________________________________________________

District: __________________________________________________________________

School: ___________________________________________________________________

Status: Accept _______ Decline _______

I have read the contract for participation in SHSI, and I understand that my child is responsible for attending, being punctual, completing assigned tasks and conducting himself/herself appropriately in a school setting.

I understand that this program will result in transcript grades for Chemistry and Geometry in addition to preparation for the SHSAT. These grades will become part of the permanent high school record and will be viewed during the college admissions process.

I also understand that SHSI is not a mandated program and that failure to follow SHSI and/or DOE regulations may cause my child to be dismissed from the program.
